7. Testicles
8. Bladder
9. VAS DEferens

Definitions

________________________Sac of skin that holds the testicles just underneath the penis
________________________Two glands on either side of bladder that secrete seminal fluid
________________________Two oval shaped organs contained in the scrotum, which produce the male hormone testosterone and sperm (also called the testes)
________________________The tube-like sex organ of males which hangs outside of the body
________________________A gland near the bladder that adds fluid to semen
________________________The tube that at different times carries urine and semen out of the body
________________________The thin long tubes through which sperm travel from the testicles, and where sperm are mixed with other fluid to make semen
________________________A sac inside the abdomen that holds urine
________________________The skin around the head of an uncircumcised penis
